ACM Meeting

*The
Association
for
Computing
Machinery*

"What you don't know about video can annoy you."

An overview of home video technology from television to digital video covering topics such as interlacing, pull-down, and aspect ratios.

Want to know what an anthropomorphic transfer is? Want to know why all British TV looks ugly? Find out this and more at this week's ACM meeting.

**Speaker: Trevor Jay
Wed., Feb. 16 at 5:00 PM in
EE 110**

Food will be provided.

Outline

- Questions
- μ -Scheme
 - Representing environment and store
 - Representing values
 - Initial environment and store
 - Evaluation
